JOURNAL OF NEUROIMMUNOLOGY

VOL. 29, Nos. 1–3 SEPTEMBER/OCTOBER 1990

CONTENTS

Announcement from the Publisher v

Research Papers

Immunoreactive growth hormone-releasing hormone in rat leukocytes
D.A. Weigent and J.E. Blalock (U.S.A.) 1

Influence of sex on susceptibility in the Theiler's murine encephalomyelitis virus model for multiple sclerosis
C.A. Kappel, R.W. Melvold and B.S. Kim (U.S.A.) 15

Studies of experimental allergic encephalomyelitis in old mice
M. Endoh, S.I. Rapoport and T. Tabira (U.S.A., Japan) 21

In vitro studies on the characterization of cellular proliferation following neuronal injury in the adult rat brain
I.R. Katz, L.M. Iacovitti and D.J. Reis (U.S.A.) 33

Evidence for autoimmune antibodies directed against embryonic neural cell adhesion molecules (N-CAM) in patients with group B meningitis
J. Nedelec, J. Boucraut, J.M. Garnier, D. Bernard and G. Rougon (France) 49

On the mechanism of high-dose intravenous immunoglobulin treatment of patients with chronic inflammatory demyelinating polyneuropathy
P.A. Van Doorn, F. Rossi, A. Brand, M. Van Lint, M. Vermeulen and M.D. Kazatchkine (The Netherlands, France) 57

Effects of prepro-vasoactive intestinal peptide-derived peptides on the murine immune response
Y. Yiangou, R. Serrano, S.R. Bloom, J. Peña and H. Festenstein (Spain, U.K.) 65

Alterations in T cell antigen specificity and class II restriction during the course of chronic relapsing experimental allergic encephalomyelitis
R.M. McCarron, R.J. Fallis and D.E. McFarlin (U.S.A.) 73

Alterations in T cell antigen specificity and class II restriction during the course of chronic relapsing experimental allergic encephalomyelitis
R.M. McCarron, R.J. Fallis and D.E. McFarlin (U.S.A.) 73

Adult thymus expresses an embryonic nicotinic acetylcholine receptor-like protein
S. Nelson and B.M. Conti-Tronconi (U.S.A.) 81

Total lymphoid irradiation and antigen-specific tolerance: future therapy for experimental myasthenia gravis?
S. De Silva, K. McIntosh, J.E. Blum, S. Order, D. Mellits and D.B. Drachman (U.S.A.) 93

Macrophage-colony stimulating factor (M-CSF) in the cerebrospinal fluid
P. Gallo, S. Pagni, B. Giometto, M.G. Piccinno, F. Bozza, V. Argentiero and B. Tavolato (Italy) 105

The modulatory effect of anti-idiotypic antibody on hybridoma cells secreting antibody to human myelin basic protein peptide 80–89
S.-R. Zhou, J.N. Whitaker and D. Dwyer (U.S.A.) 113

Restraint stress-induced suppression of major histocompatibility complex class II expression by murine peritoneal macrophages
B.S. Zwilling, M. Dinkins, R. Christner, M. Faris, A. Griffin, M. Hilburger, M. McPeek and D. Pearl (U.S.A.) 125

Effects of long-term sensory vs. sympathetic denervation on the distribution of calcitonin gene-related peptide and tyrosine hydroxylase immunoreactivities in the rat lung
L. Van Ranst and J.M. Lauweryns (Belgium) 131

(continued on page 258)

Cited in: Biological Abstracts (BIOSIS) – Chemical Abstracts – Current Contents (Life Sciences) – Excerpta Medica (EMBASE) – Index Medicus – Pascal M – Psychological Abstracts (PsycINFO)

(Contents, continued from back cover)

Characterization of measles virus-induced cellular autoimmune reactions against myelin basic protein in Lewis rats
U.G. Liebert, G.A. Hashim and V. Ter Meulen (F.R.G., U.S.A.) 139
High affinity specific binding of vasoactive intestinal peptide to human circulating T cells, B cells and large granular lymphocytes
C.A. Ottaway, T.E. Lay and G.R. Greenberg (Canada) 149
Abrogation of induced resistance to experimental allergic encephalomyelitis in guinea pigs by host-versus-graft reaction
M. Kozovska, M. Staykova and I. Goranov (Bulgaria) 157
Expression of α-adrenoceptors in a human transformed lymphoblastoid cell line
E.S. Borda, M.M.E. De Bracco, C.P. Leirós and L. Sterin-Borda (Argentina) 165
The detection of lipocortins 1, 2 and 5 in central nervous system tissues from Lewis rats with acute experimental allergic encephalomyelitis
C. Bolton, A.-J. Elderfield and R.J. Flower (U.K.) 173
Perivascular location and phenotypic heterogeneity of microglial cells in the rat brain
H. Honda, H. Kimura, W.K. Silvers and A. Rostami (U.S.A.) 183
Expression of the CD6 T lymphocyte differentiation antigen in normal human brain
B. Mayer, I. Funke, B. Seed, G. Riethmüller and E. Weiss (F.R.G., U.S.A.) 193
Adult human glial cells can present target antigens to HLA-restricted cytotoxic T-cells
S. Dhib-Jalbut, C.V. Kufta, M. Flerlage, N. Shimojo and H.F. McFarland (U.S.A.) 203
Differential suppression of interferon-γ-induced Ia antigen expression on cultured rat astroglia and microglia by second messengers
A. Sasaki, S.W. Levison and J.P.-Y. Ting (U.S.A.) 213
Attenuation of experimental autoimmune encephalomyelitis by Compound 48/80 in Lewis rats
N.C. Stanley, F.L. Jackson and E.L. Orr (U.S.A.) 223
Activation and adhesion molecule expression on lymphoid infiltrates in human glioblastomas
M.C. Kuppner, M.-F. Hamou and N. De Tribolet (Switzerland) 229
β-Endorphin stimulates rat T lymphocyte proliferation
L.M. Hemmick and J.M. Bidlack (U.S.A.) 239

Corrigendum
Prothymosin-α enhances HLA-DR antigen expression on monocytes from patients with multiple sclerosis
C.N. Baxevanis, C. Sfagos, E. Anastasopoulos, G.J. Reclos and M. Papamichail (Greece) 249
